

Gehring Diato Plasma-Stone

The way to a faster stock removal achievement

The product

- The new Gehring Diato abrasive production line is suitable for pre-honing and rough honing processes
- The plasma treatment delivers a structured abrasive cutting surface
- The crystalline particles offer optimal cutting properties

Your advantages

- Ideal removal without grinding and uncovering the diamonds.
- Quick realization of high stock removal rates
- Reduction of the grinding job and savings in material costs
- Safety while honing due to long standing Gehring and Diato honing competence

Our offer

- Abrasives with optimized cutting performance
- Tools, abrasives and honing process from one source
- Well-experienced due to hands-on applications at our customers' site
- Individual advice on your special applications
