

# Honing on the machining centre

With our new product series, you are more flexible in your production.

## The product

- Our new Gehring tool production series was specifically designed for machining centres
- Highly precise tools for small- and middle series as well as for prototype manufacturing
- Individually designed to meet your requirements

## Your advantages

- Pre-processing and honing in one clamping
- No inaccuracies in positioning
- The stock removal can be reduced
- Ideally adjusted to the Mapal Tooltronic®
- Safety during the honing process due to long standing Gehring and Diato honing competence

## Our offer

- Tooling with suitable adaption
- Tool, abrasive and honing process from one source
- Individual advice for your specific application
